A diagram of a dental arch, likely representing a maxillary (upper) arch, shown in a U-shape. The arch is divided into four quadrants by a vertical line and a horizontal line. The quadrants are labeled with letters: 'H' at the top (anterior), 'B' at the bottom (posterior), 'D' on the left (patient's right), and 'G' on the right (patient's left). A red arrow points to the right side of the lower arch, indicating a specific area of interest or a direction of movement.
