ACCORD MUPRAS : _____

03-02-192 OK REn HTA H 03m

The diagram illustrates the dental formula of a bat, showing the arrangement of teeth in the upper and lower jaws. The teeth are numbered 1 through 8, representing different types of teeth (incisors, canines, premolars, molars). The diagram is divided into four quadrants by a vertical line (Dorsal/Ventral) and a horizontal line (Dorsal/Ventral). The label 'Bas' is at the bottom, indicating the basicranium.

OBSERVATIONS : _____

This image shows a single sheet of white paper with horizontal blue ruling lines. The lines are evenly spaced and run across the width of the page. There is a vertical margin line on the left side, creating a narrow left margin. The paper appears to be from a notebook or a standard ruled sheet of paper.[illegible]
